

# **TURFGRASSES - GRAY SNOW MOLD**

## General Information

### General Precautions and Restrictions:

- DO NOT apply this product in a way that will contact workers or other persons, or pets, either directly or through drift. Only protected handlers may be in the area during applications. For any requirements specific to your State or Tribe, consult the Agency responsible for pesticide regulation.

### Limitations, Restrictions, and Exceptions

Gray Snow Mold caused by *Typhula* spp. Apply in sufficient water to obtain adequate coverage (2 to 10 gallons per 1,000 square feet). Apply 5 ½ fluid ounces of ArmorTech CLT 720 FL per 1,000 square feet of turf area (15 pints per acre). Application must be made before snow cover in autumn. If snow cover is intermittent or lacking during the winter, re-apply ArmorTech CLT 720 FL at monthly intervals until Gray Snow Mold conditions no longer prevail. In areas where Pink Snow Mold (*Microdochium* or *Fusarium* patch) is likely to occur, apply ArmorTech CLT 720 FL at 5 ½ fluid ounces in combination with products containing iprodione at 2 ounces active ingredient, per 1,000 square feet of turf area. Read and observe all label directions for products containing these active ingredients.
