

FOR LIQUID FERTILIZERS AND PESTICIDE MIXTURES

General Information

GENERAL INFORMATION:

U.S. Compatibility Plus is a surfactant adjuvant formulation designed to emulsify and disperse liquid fertilizer and emulsifiable pesticides in a spray solution allowing for a uniform mixture. U.S. Compatibility Plus adjusts the pH, acidifying the solution and increasing compatibility and stability of compounds that may normally be antagonistic when used simultaneously. The functional properties include quick dispersibility slight insolubility and spreadability in ionic solutions. U.S. Compatibility Plus is designed with compounds deemed as safe and non hazardous. All ingredients are exempt from tolerance requirements under Title 40, code of Federal Regulations 180.1001 (c).
