

GROUND APPLICATION

General Information

GENERAL INFORMATION

Cornbelt Trophy Gold is a premium high concentrate 95% active low-foaming replacement for crop oil concentrates and modified seed oil concentrates. Cornbelt Trophy Gold is a unique surfactant which improves the deposition and penetration of active ingredients into the target plant. Cornbelt Trophy Gold contains free fatty acids to improve rain fastness and wash-off resistance.

Cornbelt Trophy Gold is designed for use with herbicides, fungicides, insecticides, defoliants, desiccants, plant growth regulators, and any other crop protection product where an oil concentrate or a nonionic surfactant is required or recommended. An integrated antifoaming system helps minimize foam in the spray tank.

The efficacy of Cornbelt Trophy Gold and the effects of the spray application may be affected by various environmental factors and the condition and operation of the sprayer. Periodic calibration of spray equipment and visual inspection of the spray application may necessitate an adjustment of the adjuvant rate. When used according to the Directions for Use, Cornbelt Trophy Gold is compatible with most pesticides and fertilizers.
