

TURF & LAWN

General Information

PRODUCT INFORMATION

Organic BioLink Zinc Fertilizer is complexed with amino Acids to offer improved availability and uptake by roots and foliage, provide a quick boost to plants under nutrient stress and correct deficiencies.

Organic BioLink Zinc Fertilizer can be applied to fruit trees and vines, vegetables, field crops, ornamental trees, shrubs and flowers, containerized plants, turf and lawns.

Organic BioLink Zinc Fertilizer is suitable for use in organic food and fiber production where micronutrient deficiencies are present.
