

SOIL APPLICATION - FIELD CROPS, CORN, DRY BEANS, ETC.

General Information

RECOMMENDATIONS

ULTRA GRO Calcium 9% is recommended for use on all types of soils.

Soil applications may be made through drip systems, sprinkler systems, or sprayed in a band.

Foliar Applications: Ultra Gro Calcium is a concentrated solution and should be diluted with water before use to ensure uniform coverage.

Ground Equipment: Apply Ultra Gro Calcium with minimum 50 gallons of water per acre.

Note: Do NOT Mix With Any Phosphate Fertilizers.
