

# ODOR MASKING AGENT

## General Information

### GENERAL INFORMATION

ODORSCENT contains only a 100% active ingredient. As an additive, ODORSCENT disguises undesirable odors caused by certain crop protection chemicals

### DIRECTIONS

Shake container well before using. ODORSCENT should be added to the tank mix last, after the water and pesticide have been mixed.

### Limitations, Restrictions, and Exceptions

### RATE

Add 1 ounce of ODORSCENT for each gallon of chemical used in mix. Example: 8 ounces of ODORSCENT would be added to a 200 gallon tank mix containing 8 gallons of pesticide, herbicide, fungicide, defoliant or desiccant.
