

GROUND APPLICATION

General Information

GENERAL INFORMATION

POWER-LINE 10% Boron is a manufactured liquid nutrient. Its use is suggested as a supplement to a regular balanced fertilizer program to enhance yields and improve quality.

COMPATIBILITY

POWER-LINE 10% Boron is compatible with most fertilizers and pesticides. However, a compatibility test is suggested if the desired combination has never before been used.

MIXING DIRECTIONS:

When tank mixing with pesticides follow label directions. Agitate while mixing. Agitate well prior to spraying if mix has been left standing for a short time.

SUGGESTIONS FOR USE:

Optimum rate of application will vary between fields. For best results, follow soil test or plant analysis. POWER-LINE 10% Boron (N.S.) is intended for use in a balanced fertility program.

Limitations, Restrictions, and Exceptions

GROUND APPLICATION: Apply up to 3 gallons per acre of POWER-LINE 10% Boron (N.S.) in sufficient water to provide the desired

coverage.

NOTE: One gallons of POWER-LINE
10% Boron (N.S.) contains .64 units
of Boron.

IMPORTANT NOTE:

Contains Boron. Do not use on Boron
Sensitive Crops. Use only according
to manufacture's directions.
