

FRUITS, VEGETABLES, HERBS, SPICES, ROSES, HOUSEPLANTS, FLOWERS, TREES AND SHRUBS - FUNGAL DISEASES

General Information

GENERAL INFORMATION

- Do not add adjuvants (spreaders, stickers, extenders, etc.) to 70% NEEM OIL.
- Stops powdery mildew in 24 hours.

Limitations, Restrictions, and Exceptions

FRUITS, VEGETABLES, HERBS, SPICES, ROSES, HOUSEPLANTS, FLOWERS, TREES AND SHRUBS

GENERAL INFORMATION:

- Do not add adjuvants (spreaders, stickers, extenders, etc.) to 70% NEEM OIL.
- Stops powdery mildew in 24 hours.

Application Instructions:

70% NEEM OIL is an effective fungicide for the prevention and control of various fungal diseases including powdery mildew, black spot, downy mildew, anthracnose, rust, leaf spot, botrytis, needle rust, scab and flower, twig and tip blight, and alternaria. As a preventative, apply 70% NEEM OIL on a 7 to 14 day schedule until disease development is no longer present. To control disease already present, apply 70% NEEM OIL on a 7 day schedule until disease pressure is eliminated. Then continue spraying on a 14 day schedule to prevent the disease from reoccurring. To prevent rust leaf spot diseases, anthracnose and scab, begin applications at the first sign of spring budding. To prevent powdery mildew, apply in mid-summer or when disease is first detected. Continue applications until disease pressure no longer exists.

Mixing Instructions:

Mix 70% NEEM OIL at the rate of 2 tablespoons (1 fluid ounce) per gallon of water. Thoroughly mix solution and spray all plant surfaces (including undersides of

leaves) until completely wet. Frequently mix solution as you spray.
