

# **ORNAMENTAL TREES, SHRUBS AND FLOWERS**

## General Information

### GENERAL INFORMATION

Soil TRIGGRR is a plant growth regulator for use on agronomic and horticultural crops. Applied as a supplement to a cultural program at specific stages of plant development, Soil TRIGGRR improves seedling vigor, crop quality, uniformity and growth.

Use Soil TRIGGRR to:

- Improve germination and growth of small seeded crops (for example alfalfa, direct seeded onion, carrots and cucumbers).
- Promote improved root growth and nodulation in legumes.
- Promote early seedling vigor and the ability of a plant (for example bell peppers and tomatoes) to set and carry a crop to maturity.
- Improve lateral tuberous root growth (sweet potatoes), improve initiation growth and maturity of tubers and ornamental bulbs providing a more uniform crop, and increase specific gravity (potatoes) and number of tubers.
- Promote rooting and growth of ornamental varieties from slips or cuttings.

Limitations, Restrictions, and Exceptions

### ORNAMENTAL TREES, SHRUBS AND FLOWERS

Chemigate into the soil drench.

**NURSERY AND CONTAINER USE:** Apply Soil TRIGGRR as a soil drench at the following dilutions and rates based on container size:

- Container Size: 1 gallon

Dilution: 1 pt / 100 gallons

Timing: Weekly.

- Container Size: 5 gallons

Dilution: 1 pt / 100 gallons

Timing: Bi-weekly.

- Container Size: 10 or more gallons

Dilution: 1 pt / 100 gallons

Timing: 3 weeks to monthly.

Note:

- Early Seedling Vigor
- Improved Root Growth
- Stress Resistance
- Uniformity/ Improved Quality
- Use with FOLIAR TRIGRR: Yes
