

FIELD CORN, POPCORN AND SWEET CORN - AT CULTIVATION

General Information

DIRECTIONS FOR USE

All setbacks must be planted to a crop or seeded with grass or other suitable cover, and all vegetative buffers must be seeded with grass or other suitable cover.

DO NOT load, rinse, or wash equipment within 300 ft from surface water bodies.

DO NOT load, rinse, or wash equipment within 50 ft from wells unless conducted on an impervious surface.

To prevent channeling of surface water runoff, adjust the planter row-cleaners appropriately to prevent rows lower in height than adjacent soil.

Limitations, Restrictions, and Exceptions

FIELD CORN, POPCORN AND SWEET CORN - AT CULTIVATION

Application - Apply granules to base of plants just ahead of cultivation shovels so as to cover granules with soil.

Remarks

DO NOT graze or cut for forage within 30 days of treatment.

DO NOT harvest sweet corn within 60 days after application.

For Field Corn Only: (Excluding Field Corn Grown For Seed) Counter 15G may be applied 7 days after application of ALSinhibiting herbicides.

ALS-inhibiting herbicides such as Accent, Accent Gold, Basis Gold, Steadfast, Beacon, Exceed, Hornet™, Permit, Scorpion III, Celebrity, Celebrity Plus, Lightning, Northstar, and Spirit herbicides.

DO NOT exceed 8.7 pounds of Counter 15G per acre.

Restricted Entry Interval

48 hours

The 48-hour REI is increased to 72 hours in outdoor areas where average rainfall is less than 25 inches a year.

Exception: If the product is soil-injected or soil-incorporated, the Worker Protection Standard, under certain circumstances, allows workers to enter the treated area if there will be no contact with anything that has been treated.
