

ALFALFA

General Information

GENERAL INFORMATION

SMARTBOX INFORMATION

The SmartBox system should be properly calibrated by a person familiar with operation of the system to assure an accurate application rate of Lorsban 15G. Lorsban 15G must be applied with the SmartBox system. Please refer to the SmartBox operator's manual for detailed information on system operation and calibration procedures. Do not attempt to open or tamper with the SmartBox container. Do not attempt to repair the SmartBox container. If repairs are necessary, contact your local AMVAC sales representative or the manufacturer of the SmartBox system.

Refer to the label for the Application Rates/1000 Ft of Row and Equivalent/Acre at Different Row Spacings.

Limitations, Restrictions, and Exceptions

ALFALFA

At Plant In-Furrow Treatment: Apply Lorsban 15G at planting as an in-furrow treatment for suppression of the target pests during establishment. Direct the granules into the planter shoe with the seed or place the applicator tube directly behind the planter shoe so that the granules drop into the seed furrow or place the granular band applicator behind the planter shoe so that the granules fall on the soil surface and into the open seed furrow and are completely covered with soil.

Specific Use Restrictions:

Do not cut or graze treated alfalfa within 21 days after application.
