

## **OTHER CROPS AND USES - TURF GRASSES**

### General Information

#### GENERAL RECOMMENDATIONS

**PESTICIDE COMPATIBILITY:** This product is generally compatible with insecticides, herbicides, miticides, fungicides and foliar nutrients. It may be incorporated into existing spray programs. Add this product to water before adding pesticides. It is always advisable to first test for compatibility on a small scale before tank mixing products.

**FERTILIZER COMPATIBILITY:** This product is compatible with 32% and 28% Nitrogen solutions. Addition of this product to any type of fertilizer solution, especially concentrates, should not be done without first testing for compatibility on a small scale.

**FOLIAR APPLICATION:** For best absorption into the plant, apply this product in early morning or late evening. For aerial application use at least 1 gallon of water for every pint of this product applied to the crop. Consult your local farm advisor for information on sensitive varieties and hybrids.

### Limitations, Restrictions, and Exceptions

#### OTHER CROPS AND USES - TURF GRASSES

Apply 1 qt. per acre or 1 to 2 ounces per 1000 sq. ft. Mix with water, liquid fertilizer solution or pesticide solution and apply in early spring. Repeat as needed.
