

## ALL PLANTS

### General Information

#### GENERAL DESCRIPTION:

For foliar application to all plant species GREEN THUMB T/O is a patented product. It combines various manufactured, preformed plant nutrients.

GREEN THUMB T/O may be blended with most fungicides, insecticides, adjuvants or nutrients. Consult a company Representative for Proper rates and possible compatible combinations.

**CAUTION:** Do Not use GREEN THUMB T/O in a dilution less than 8 parts water to 1 part material. Consult a technical representative for specific uses on sensitive plant tissues.

### Limitations, Restrictions, and Exceptions

#### ALL PLANTS

Dilute 3-7 oz material into 1 gal water. Apply at a volume that delivers a \"Fine Mist\" to canopy tissues. Use lower rates for delicate or sensitive tissues or flowers. Repeat application every 1-2 weeks throughout the growing season.

- Supplement fertility with .5-2.5 gal per 1,000 sq ft with TILTH T/O and repeat every 1-3 months throughout the growing season.

- Maximize efficiency of soil fertility by applying 1-3 gal per 1,000 sq ft of 1 part IOTA T/O to 1 part TILTH T/O. Use a hose-end applicator for most applications. For potted or plants in basins dilute 1/4 to 1/2 oz each of each of IOTA T/O + TILTH T/O into 1 gal of water and use this solution to irrigate plants.
