

# ALL PLANTS AND ALL SOILS

## General Information

### GENERAL DESCRIPTION:

For application to soils for woody perennials, herbaceous annuals & perennials, turf, ornamentals, vegetable & field crops and tree & vine crops.

IOTA T/O may be blended with most fungicides, insecticides, adjuvants or nutrients. Always use in conjunction with TILTH T/O Consult a company representative for technical details. Effective use is gained through applications with a hose-end sprayer.

### Limitations, Restrictions, and Exceptions

All Plants and All Soils: In a hose-end applicator place ~1 part IOTA T/O + ~15 parts TILTH T/O. Apply 1-3 gal combined mix per 1,000 sq ft. Use 3 gal combined mix on the first application of the year or for problem areas and lower rates for maintenance. Repeat every 1-3 months throughout the growing season.
