

DETERGENT

General Information

DIRECTIONS FOR USE

1. Dilute one (1) gallon Sooty Mold Cleaner to nineteen (19) gallons of water.
2. Wash over firm brushes at 120 - 130 rpm for 30 seconds.
3. Rinse with potable water.
4. Dilution rate may be varied with the amount of build-up on the fruit.
5. Maintain a steady and even flow of detergent on fruit.
