

# IMPROVED EMERGENCE

## General Information

### GENERAL INFORMATION:

WaterMaxx 2 is a patented technology that enhances the infiltration and penetration of applied irrigation water and rainfall in agricultural soils. WaterMaxx 2 will enhance irrigation efficiency and improve moisture levels in the soil providing a better growing environment for your plants. WaterMaxx 2 may be applied through any type of irrigation system (except earthen ditches) or by conventional spray equipment.

### Limitations, Restrictions, and Exceptions

To minimize crusting of seedbed and improve seedling emergence, apply 1 to 4 quarts/acre. Can be band sprayed directly over seed row separately or tank mixed with fertilizers.
