

FALLOW BED TREATMENT

General Information

GENERAL INFORMATION:

WaterMaxx 2 is a patented technology that enhances the infiltration and penetration of applied irrigation water and rainfall in agricultural soils. WaterMaxx 2 will enhance irrigation efficiency and improve moisture levels in the soil providing a better growing environment for your plants. WaterMaxx 2 may be applied through any type of irrigation system (except earthen ditches) or by conventional spray equipment

Limitations, Restrictions, and Exceptions

Apply 1 to 4 quarts/acre to fallow beds in advance of rainfall events to increase water infiltration and to reduce water run off.
