

## **FIELD CROPS**

### General Information

### General Information

CHEM-SUPRA MICRI-MIX is a foliar or soil-applied micronutrient and is nonphytotoxic when used as directed. CHEM-SUPRA PRODUCE MIX is completely available and absorbed by the leaf surface or the root system.

CHEM-SUPRA PRODUCE MIX is recommended on the following crops: Alfalfa, Almonds, Avocados, Apples, Barley, All beans, Broccoli, Cabbage, Cauliflower, Carrots, Celery, Citrus, Corn, Grapes, Lettuce, Milo, Melons, Nectarines, Rice, Pears, Peaches, Pecans, Peppers, Plums, Prunes, Potatoes, Peanuts, Sorghum, Soybeans, Sugar beets, Sweet corn, Sugar cane, Strawberries, Tea, Tomatoes, Turnips, Walnuts, Watermelons, Wheat and most other crops.

### Limitations, Restrictions, and Exceptions

Field crops: Apply recommended rates when plants are young. This is the time when most severe deficiencies occur.

CHEM-SUPRA PRODUCE MIX will disperse in water with little agitation.

Many pesticides can be added and applied while spraying CHEM-SUPRA.
