

TOMATOES, PEPPERS AND MOST FLOWERING BEDDING PLANTS

General Information

PRODUCT DESCRIPTION:

13-2-13 is a high nitrate-nitrogen formula with potassium, calcium and magnesium for improved quality and color. Two types of chelated iron provide nutrient availability over a wide range of water pH.

Limitations, Restrictions, and Exceptions

Feed at 100 to 200 ppm N with constant liquid feeding. Use 200 to 400 ppmN for pulse feeding.
