

## **DECIDUOUS FRUIT AND NUT TREES, CITRUS TREES ETC.**

### General Information

CNI Zinc Nitrate Solution is a concentrated zinc micronutrient source for foliar or soil application and is recommended as an additive in dry or liquid fertilizers.

CNI Zinc Nitrate Solution is compatible with most pesticides and agricultural chemicals that can be utilized with liquid fertilizers. **DO NOT MIX WITH POLYPHOSPHATE FERTILIZER OR CATIONIC PESTICIDES.** Always make a “jar” test prior to mixing.

### DIRECTIONS FOR USE

Rates and timing of applications are dependent on the crop and local conditions and should be made as a result and/or plant analysis in consultation with local agricultural authorities.

### Limitations, Restrictions, and Exceptions

Use sufficient water for thorough coverage of foliage or soil.
