

AERIAL APPLICATION

General Information

GENERAL INFORMATION

BWC SPREADER-90 is a high analysis spreader-activator which gives quick wetting, absorption and aids in assimilation and translocation. BWC SPREADER-90 is low foaming, nonionic, and is 90% active. It can be used with insecticides, miticides, herbicides, defoliants and fungicides.

Limitations, Restrictions, and Exceptions

DIRECTIONS FOR USE

This product may be used in dilute or concentrate sprays. Rates Per 100 Gallons or Less of Spray Mix Per Acre for Acaracides, Insecticides and Fungicides. Aerial application; 4-10 ounces. Add BWC SPREADER-90 to spray tank first.

Note: The above use recommendations are considered to be adequate for most uses. Some pesticides, however, may require higher rates for optimum effect. Follow the pesticide label directions when this occurs. However, do not add this product at a rate which exceeds 5% of the total spray volume.
