

GOLF COURSES AND TURF

General Information

- Increases water penetration through compacted soils.
- Improves wetting of hydrophobic soils and potting mixes
- Reduces irrigation water run-off.
- Gives greater water efficiency.
- Helps eliminate dry spots and wet spots in fields and turf.
- Reduces stress between irrigations.
- Non-toxic, nonflammable and completely biodegradable.

Limitations, Restrictions, and Exceptions

GOLF COURSES & TURF:

Apply 8-16 fl.oz./1,000 sq. ft. in sufficient water for thorough coverage, then water in. Repeat as needed. Perc-O-Late can also be injected through the irrigation system on a weekly basis. Adjust proportioner valve to inject at the 1:1000 ratio.
