

OUTDOORS - AROUND STRUCTURES

General Information

ABATHOR Granular Ant Bait is a ready to use product for use in controlling numerous ants both indoors and outdoors. This bait formulation combines a mixture of foods and the delayed action insecticide, abamectin. This insecticide acts to reduce the population of worker ants and can cause colony elimination. Avoid use of other insecticides or sprays on or near this product.

Limitations, Restrictions, and Exceptions

AROUND STRUCTURES: Lightly sprinkle the product evenly in a band approximately 1-2 feet wide around the foundation of the building at a rate of 0.3 ounces (1 tablespoon) per 100 lineal feet. Treat visible trails with approximately 0.3 to 1 ounce (1 to 3 tablespoons) of product depending on the number of ants in the trail. Repeat application as necessary.
