

WITH ROUNDUP - QUACKGRASS CONTROL

General Information

GENERAL INFORMATION:

Ag-Surf ORIGINAL is a surfactant for use with Roundup, Ally and Reglone herbicides, and Rovral 50% W.P. fungicide, in situations where a non-ionic surfactant is called for (minimum or zero tillage systems surfactant additive, etc.). It is important to follow label directions for Roundup, Ally, and Reglone herbicides and Rovral fungicide, using the recommended rates in combination with Ag-Surf ORIGINAL

Limitations, Restrictions, and Exceptions

With Roundup: Quackgrass: When applying the “Quackgrass Control” rate of 2.5 L/ha of Roundup and water volumes of 150 - 300 L/ha, add Ag-Surf at 0.5% (0.5 litres/100 litres of water) to maintain adequate surfactant concentration in spray solution. See “Quackgrass Control” section of Roundup label for other details of application.
