

## **SURFACTANT - 10 GPA SPRAY VOLUMES**

### General Information

GENERAL: DISPATCH AMS is an aqueous ammonium sulfate combined with a surfactant to provide a convenient adjuvant. DISPATCH AMS should be utilized with agricultural chemicals which require the addition of surfactant and ammonium sulfate.

### Limitations, Restrictions, and Exceptions

#### SUGGESTED USE RATE - 10 GPA spray volume

2.5 gallons of DISPATCH AMS per 100 gallons will supply 0.5% (2 quarts per 100 gallons) surfactant and a source of ammonium sulfate.
