

## **FIELD AND VEGETABLE CROPS - FOLIAR APPLICATION**

General Information

General Information

CORE Magnesium Nitrate solution is an effective, readily available source of liquid Magnesium for both soil and foliar applications. It may be applied in water sprays, with pesticides, or with most liquid fertilizers.

Limitations, Restrictions, and Exceptions

Apply 2 to 4 quarts per acre broadcast prior to planting. Apply 1 to 4 quarts foliar in sufficient spray volume to ensure uniform coverage during early growth to bloom stage, then one to two subsequent applications at 2-week intervals or as needed to supplement nutritional requirements.
