

## **FOLIAR SPRAY**

### Limitations, Restrictions, and Exceptions

Rate of Application (Foliar Spray Use): Use at the rate of 3 to 5 lbs. per acre (3 to 5 kilograms per hectare) on all crops, to improve plant vigor and to promote crop production. For best results multiple applications should be used. Begin early in the growing season and make 3 to 5 applications at 7 to 14 day intervals. Apply as a foliar application to supplement the normal soil applied fertility program.
