

## SOIL APPLICATION

### General Information

General Information: Millerplex is a fertilizer which contains extracts of fresh *Ascophyllum nodosum* Kelp for use on agronomic crops including but not limited to the following: Alfalfa, Corn, Cotton, Peanuts, Soybeans, Strawberries, Grapes, Stonefruit, Apples, Pears, Nutcrops, Citrus, Avocados, Tree Crops, Row Crops and Vegetables. Apply in foliar sprays or irrigation water as a complement to a well-balanced crop fertility program. It also contains Amino Acids and Kelp which assist in the translocation of plant nutrients. For specific crop recommendations contact your PCA or a Company Representative. Foliar fertilizer is intended to be used as a supplement to a regular fertilization program and will not, by itself provide all the nutrients normally required by agricultural crops.

Millerplex contains proprietary Nutrient Express technology, which is the sole intellectual property of MILLER CHEMICAL & FERTILIZER CORPORATION.

Use this product in accordance with good agronomic practices, which include utilizing proven spray equipment set for proper coverage. Do not make applications when temperatures are too hot, as crop damage may occur. Applications should be made at temperature levels and when other environmental conditions in your area are such that your experience indicates the application will be compatible and will accomplish the desired result.

### Limitations, Restrictions, and Exceptions

Soil Applications: Add Millerplex to starter or side dressing liquid fertilizer formulations to provide 2 to 8 ounces per acre. Millerplex may be applied in seed furrows alone at 4 to 8 ounces per acre.
