

## **VEGETABLES - FOLIAR APPLICATION**

General Information

General Information

PASSPORT™ is a “state of the art” complete plant food containing multiple phosphate sources, an enhanced micronutrient package from EDTA. PASSPORT as a starter in or sprayed over the top of the row to promote root development and early seedling growth, by supplying nutrients vitally needed by young plants under cool, wet spring conditions. Continue with multiple applications throughout the growing season to provide a continuous supply of nutrients at or near the time they are needed most.

Limitations, Restrictions, and Exceptions

Use 1-4 qts./acre depending on size of plants. First application should be made prior to flowering and/or fruiting. Continue throughout season at 7-10 day intervals.
