

DIRECTIONS FOR USE

General Information

DESCRIPTION: Plant-Prod Greens Fertilizers are recommended for use on greens, tees and other fine turf areas. Each analysis contains chelated micronutrients for maximum micronutrient availability and prevention of deficiencies. Plant-Prod Greens fertilizers offer excellent coverage and control of nutrients when using low nutrient application rates and excellent turf safety when used as directed.

Limitations, Restrictions, and Exceptions

DIRECTIONS FOR USE: Plant-Prod 20-3-30 Greens Fertilizer will provide approximately two weeks of fertility when applied as directed. Use in combination with pest control products applied on a two week schedule. Use only with pest control products that are recommended and labelled for use with fertilizers. Factors such as precipitation amount and/or frequency, clipping removal and soil texture will affect fertility rate and duration. Dissolve the recommended amount of fertilizer in at least 20 litres of water and apply to 100 square meters.
