

BERRIES - NEW PLANTINGS

General Information

GENERAL APPLICATION INSTRUCTIONS

Apply ORGANOCIDE PLANT DOCTOR by various application methods, including foliar spray, soil drench, soil incorporation, basal bark application and bare root dip. For foliar sprays, apply ORGANOCIDE PLANT DOCTOR with sufficient water volumes for adequate coverage of foliage, according to plant type and growth stage. To ensure good coverage, spray to wetness, but avoid run-off.

When applying ORGANOCIDE PLANT DOCTOR to plant species for the first time, spray a limited number of plants first and wait for 3-7 days. Then check for leaf burn (phytotoxicity).

Limitations, Restrictions, and Exceptions

BERRIES

Use ORGANOCIDE PLANT DOCTOR for effective control of root rot in bush and cane berries such as, but not limited to, blueberries, blackberries, loganberries, and raspberries (red, black, hybrids/cultivars).

- Not for use in California.
