

GREENHOUSE CROPS

Limitations, Restrictions, and Exceptions

DIRECTIONS FOR USE: PLANTEX 17-5-19 is recommended for use on all plants depending on the water quality. For tender plants, spray applications and outdoor application in hot weather, use one half the recommended rate of application. PLANTEX is soluble at the rate of 2½ - 4 lbs per gallon of water. Use warm water for fastest dissolving. Store in a cool, dry place.

Refer in the label for the specific rate Table.
