

COMMERCIAL GREENHOUSE AND NURSERIES

General Information

Product Information

AQUA POWER 5-1-1 is a liquid plant nutrient product derived from marine fish species. Due to the high organic matter content, AQUA POWER 5-1-1 acts as a soil enhancer and increases the soil moisture holding capacity.

Dilute AQUA POWER 5-1-1 with at least 100 parts water and apply in accordance with the directions. Store in a cool place. Material may expand under excessive temperature and cause leakage. AQUA POWER 5-1-1 is safe through most irrigation equipment. AQUA POWER 5-1-1 will pass through an 80 mesh screen. Check compatibility with drip type irrigation systems before use to prevent clogging. It is recommended to always flush irrigation systems after applying Aqua Power.

Limitations, Restrictions, and Exceptions

Commercial Greenhouses and Nurseries: Inject into irrigation water after filter, at ratio of at least 1:10,000 ppm. Add 1/2 to 2 tablespoons per gallon of water. Apply at 2 week intervals.
