

# SOIL APPLICATION

General Information

## PRODUCT INFORMATION

AQUABOR contains boron for soil and foliar applications. It is readily available and non-phytotoxic to plants when applied in accordance to directions. It is designed to prevent and correct boron deficiency. It may be applied with other fertilizers.

Limitations, Restrictions, and Exceptions

SOIL APPLICATION: AQUABOR can be applied before or at planting as banding or broadcast. The application rate is 1 gallon to 3 gallons per acre depending on soil conditions and application methods. For maintenance 1/2 -1 gallon per acre is recommended.
