

FOLIAR APPLICATION: FRUIT TREES AND GRAPES

General Information

PRODUCT INFORMATION:

BIOMIN BOOSTER 221 contains amino acid chelated minerals designed for soil and foliar application. It is completely bioavailable and non-phytotoxic to plants when applied in accordance to directions. Designed to prevent and correct micronutrient deficiencies and to boost crops during critical or fast growing periods. May be applied with nitrogen fertilizer.

For best results, apply BIOMIN BOOSTER 221 when the crop is in active growing stage, after irrigation or natural rain fall. For foliar application, it should be diluted with at least 100 times of water. BIOMIN BOOSTER 221 will lower high pH of water and decrease the hydrolysis of most pesticides.

Biomin Booster 221 Can Be Applied To Strawberry, Lettuce, Tomato, Celery, Stone Fruits, Vegetables, Grapes, Commercial Turf, And Ornamental Gardens.

Limitations, Restrictions, and Exceptions

Repeat the application in about 4 weeks if necessary.
