

# **FOLIAR APPLICATION: VEGETABLE CROPS**

## General Information

### PRODUCT INFORMATION

BIOMIN BOOSTER contains minerals for soil and foliar application. It is completely available and non-phytoxic to plants when applied in accordance to directions. It is designed to prevent and correct mineral deficiency and to boost crops during critical stages or fast growing periods.

It can be applied in combination with nitrogen fertilizer.

BIOMIN BOOSTER can be applied to FRUIT TREES, VEGETABLES, GRAPES, FIELD CROPS, and ORNAMENTAL GARDENS.

### Limitations, Restrictions, and Exceptions

Repeat the application 1-3 weeks later.

For best results, apply BIOMIN BOOSTER when the crop is in active growing stage, after irrigation or natural rain fall. For foliar application, it should be diluted with at least 20 times of water. BIOMIN BOOSTER will lower high pH of water and decrease the hydrolisis of most pesticides.
