

FOLIAR APPLICATION - VEGETABLE CROPS

General Information

PRODUCT INFORMATION:

NUTRIMIN IRON contains chelated mineral for soil and foliar applications. It is readily available and non-phytotoxic to plants when applied in accordance to directions. It is designed to prevent and correct mineral deficiency. It may be applied with nitrogen fertilizer.

For best results, apply NUTRIMIN IRON when the crop is in active growing stage, after irrigation or natural rain fall. For foliar application, it should be diluted with at least 100 times of water.

Nutrimin Iron Can Be Applied To Fruit Trees, Vegetables, Grapes, Field Crops, Commercial Turf & Ornamental Gardens.

Limitations, Restrictions, and Exceptions

VEGETABLE CROPS: Repeat the application in 1-3 weeks if necessary.
