

## **FOLIAR APPLICATION: VEGETABLES AND POTATOES**

### General Information

#### PRODUCT INFORMATION

NUTRIMIN PISTACHIO - amino acid (glycine) chelated minerals for soil and/or foliar applications. Completely bioavailable and non-phytotoxic to plants when applied in accordance to directions. It is designed to prevent and correct mineral deficiencies and to boost crops during critical stages or fast growing periods. It can be applied in combination with nitrogen fertilizer.

NUTRIMIN PISTACHIO may be applied to FRUIT TREES, VEGETABLES, POTATOES, GRAPES, CITRUS, FIELD CROPS, ORNAMENTAL GARDENS, ETC.

For best results, apply NUTRIMIN PISTACHIO when plants are in an active growing stage, after irrigation or rainfall. For foliar application, it should be diluted with at least 20 times of water. NUTRIMIN PISTACHIO will lower the high pH of water and decrease the hydrolysis of most pesticides.

#### Limitations, Restrictions, and Exceptions

Repeat the application 1- 3 weeks later. In greenhouse and plastic tunnels, application may be repeated every week or every other week.
