

FIELD AND ROW CROPS: SOYBEANS

General Information

GENERAL INFORMATION

SYNERGIZER 0-10-20 is a liquid food designed for soil and/or foliar applications. It contains a high level of stabilized water soluble potassium. SYNERGIZER 0-10-20 is compatible with most fertilizer solutions and pesticides. Dilute SYNERGIZER 0-10-20 with water before mixing with other fertilizers or pesticides.

GENERAL RECOMMENDATIONS

SYNERGIZER 0-10-20 can be used for soil or foliar applications. It is recommended for all agricultural and ornamental crops, turf, and other crops. SYNERGIZER 0-10-20 should be diluted with enough water to cover the entire acreage.

Limitations, Restrictions, and Exceptions

FIELD AND ROW CROPS: SOYBEANS

1-3 quarts per acre (2.5-7.5 liters/hectare), 2-4 times each season. Apply between first full leaf and early pot fill stages.
