

ORNAMENTAL APPLICATIONS - TREES, ETC. (3 TBSP. - 100 GAL. WATER)

General Information

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

NOTE: Not For Use in New York State or California

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the Agency responsible for pesticide regulation.

Apply only when wind speed is 10 mph or less at the application site.

Limitations, Restrictions, and Exceptions

Application Instructions:

- Use the dilution information to determine the rate for the amount of water needed to uniformly cover the area to be treated. Do not use less than 2 gallons of water per 1,000 sq. ft.
- Irrigate thoroughly to incorporate Sharda Imidacloprid 70 WDG into the upper soil zone.
- Before pest populations become established, make foliar applications. Apply as needed.

Only for this foliar use in industrial and commercial buildings and their outdoor areas. Also for this foliar use in residential areas.

- Rate: 3 tbsp. plus 1 tsp. in 100 gals water

Method
