

SHRUBS, SOIL INJECTION: ADELGIDS, APHIDS, ETC.

General Information

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

NOTE: Not For Use in New York State or California

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the Agency responsible for pesticide regulation.

Apply only when wind speed is 10 mph or less at the application site.

Limitations, Restrictions, and Exceptions

Shrubs, Soil Injection: Apply as a uniform drench around the base of the shrub, in at least 10 gallons water per 1,000 sq. ft. Remove any barrier that may prevent the solution from reaching the root zone.

Shrubs: Use enough water so that an equal amount of solution may be injected in each hole. Use low pressure and enough solution to ensure thorough distribution. Use at least 4 holes per shrub.

Restrictions: No soil injection applications are allowed in Nassau or Suffolk Counties of New York.

- Only for this use in industrial and commercial buildings and their outdoor areas. Also for use in residential areas, and state, national, and private wooded and forested areas.
