TREES AND SHRUBS (PINE) - PINE BEETLES, PINE MOTHS, ETC.

Limitations, Restrictions, and Exceptions

TREES AND SHRUBS

Apply as a thorough spray, wetting leaves and branches to the dripping point. Try to penetrate dense foliage. Spray in the late afternoon or evening, when the temperature ranges from 50° to 75° F and when there is little or no wind. Spray at the first sign of insects. Repeat as necessary; use intervals of 4-8 days. Application can be made up to the day of collection.

Method

Spray
