

DRENCH APPLICATION

General Information

USE PRECAUTIONS: Do not mix with other fertilizers or pesticides unless compatibility is known. When using on new crops or varieties, test rate and application techniques on a few plants before treating entire crop to check for phytotoxicity. KEEP OFF SIDEWALKS, DRIVEWAYS, PORCHES AND ALL MASONRY SURFACES OR SERIOUS STAINING WILL RESULT. Timing, method and rates of application, differences in plant varieties, growing conditions and other influencing factors are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material.

Limitations, Restrictions, and Exceptions

DRENCH APPLICATION: To established plants for the correction of deficiencies as a one time treatment, use 1/2 pound per 100 gallons. Drench to wet root area.
