

LAWNS, FAIRWAYS, SPORTS FIELD - MAINTENANCE

General Information

GENERAL INFORMATION

SA-50 Brand Soil Wetting Agent is recommended for use in the installation and maintenance of turf, ornamentals, trees, hanging baskets, bedding plants, planters and beds. It ensures uniform distribution and availability of moisture in the rootzone. Used as directed a treatment lasts three to four months and is biodegradable and non-toxic to plants and animals.

Limitations, Restrictions, and Exceptions

Directions

Apply at 3-4 month intervals or apply 2 oz./1000 sq. ft. monthly.

BENEFITS FOR TURF

- Aids water penetratin into and through compacted and hydrophobic soils.
- Helps water penetrate heavy thatch for more uniform soil wetting and improved distribution of fertilizer and pesticides.
- Reduces water loss and erosion caused by run-off.
- Moves available water deep in the rootzone to promote healthy roots and reduce evaporative water loss.
- Promotes fast water infiltration to keep puddles from forming.
- Allows water penetration through layered soils to encourage vigorous roots.
