

NORMAL INFESTATION OF MOSS

General Information

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For residential use only. Not for use indoors.

IRON WILL STAIN. Use this product on lawns and around flowers and ornamental shrubs. Keep this product off surfaces such as sidewalks, patios, wooden decks, driveways and clothing. Sweep concrete surfaces immediately to prevent staining. If concrete is wet when contact occurs, staining may be impossible to prevent.

Lawn moss thrives in damp, shady areas where the soil is acidic and drainage may be poor. If steps are not taken, moss can spread and take over a lawn. This product will quickly kill lawn moss, giving your lawn grass) the opportunity to fill in and reclaim the lawn.

For best results, apply this product when the lawn is moist. Mow before application, to better expose existing moss and water in to activate the product.

You can now enjoy a beautiful moss free lawn with no excess growth & less mowing.

As A Spot Treatment In LAWNS and around Ornamental Shrubs and Flowers: Apply anytime moss is actively growing and soil is moist. Sprinkle granules over the mossy area. Immediately after application, water-in. Wait several days until the moss turns black and dies, then gently rake it out. **IMPORTANT:** This product can burn delicate foliage if applied directly to flowers and ornamental shrubs. If (contact does occur, use a garden hose to wash the product off of the plants immediately.

Limitations, Restrictions, and Exceptions
