

# **TOMATOES, BEANS, CUCUMBERS, EGGPLANTS, MELONS, OKRA, ETC.**

## General Information

BONIDE TOMATO AND BLOSSOM SET SPRAY is a ready-to-use natural plant hormone product that provides Biological Grow Power to promote blossom set and fruit development.

Used as directed, Tomato and Blossom Set Spray will promote flowering, increase blossom set and increase fruit yield.

## Limitations, Restrictions, and Exceptions

Tomatoes, Beans, Cucumbers, Eggplants, Melons, Okra, Peppers, Strawberries and Grapes will often bear fruit earlier when treated with Bonide Tomato and Blossom Set Spray.

Shake well before using. Tomato and Blossom Set Spray solution is ready to use as is. To promote blossom set and fruit development spray the flowers and adjacent foliage with Tomato and Blossom Set Spray until the leaves are completely wet. Repeat as blossoms appear or at weekly to two week intervals.
