

SUGGESTED APPLICATIONS

General Information

General Information:

CHB Humic Base is a humic acids solution extracted from leonardite. CHB-Humic Base is formulated as a regular 12% humic acids solution.

CHB Humic Base is primarily designed for soil and water run applications in combination with fertilizers.

It is recommended to shake, stir or agitate containers or tanks of CHB Humic Base just prior to usage.

Directions for Use:

Applications: CHB Humic Base can be applied by side dress and banding equipment, water run through irrigation systems or sprayed directly on soils with other fertilizer materials. CHB Humic Base can also be impregnated into dry fertilizer blends.

Limitations, Restrictions, and Exceptions

Suggested Applications:

CHB Humic Base can be soil applied and water run on all crops at rates of 2 to 15 gallons per acre.

It is best to use materials in split applications with other fertilizer and micronutrient products at 1 to 3 gallons per acre in 2 to 6 applications.

When applications are sprayed or applied directly to soil without other nutrients, dilute in 3-10 gallons/acre of water prior to application.
