

SOIL FERTILIZER

General Information

GENERAL INFORMATION

Rx780 is a dry soluble formulation, developed as an easy to use formulation that is highly compatible with most fertilizers.

APPLICATION GUIDELINES

- Proper application rates and frequency should be determined by specific conditions and plant requirements.
- Rx780 is highly compatible with the most plant nutrients.
- Assure that materials is fully hydrated prior to application.
- Always jar test before adding to a spray tank or injection tank.
- Spray and fertigation applications should be made with sufficient water, 50 mesh screens, and agitation throughout the application.
- When tank mixing with other chemicals, it is the responsibility of the end-user to assume compatibility and safety.
- Poly in-line filters should be replaced with stainless steel, if possible.
- Always consult your agronomist.

Limitations, Restrictions, and Exceptions

COMMENTS

Apply in conjunction with additional foliar nutrients.
