

BACKPACK OR HAND HELD SPRAYERS

General Information

PRO CROP OIL is a combination of surfactant and a superior paraffinic oil designed for use in crop protection spray programs. PRO CROP OIL increases the effectiveness of pesticides. Do not use PRO CROP OIL during periods of extreme high or low temperatures and/or humid conditions. PRO CROP OIL may be used on agricultural, aquatic, forestry, turf and ornamental, industrial and non-cropland sites. NOT FOR AQUATIC USE IN WASHINGTON.

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with PRO CROP OIL. Use according to the most restrictive label directions for each product in any tank mix.

RECOMMENDATIONS: Specific use rates will vary with conditions of application such as water hardness, application method, equipment, spray droplet size, condition of foliage, etc. Also, higher rates than those below may be used if recommended by pesticides labeling. Follow pesticide label directions. However, do not add this product at a rate which exceeds 50% of the finished spray volume, except when used as a diluent for basal bark applications of herbicides.
