

TURF

General Information

GENERAL INFORMATION

Nucleus 0-0-21 is a highly concentrated water-based solution of potash and oxidized sulfur useful in the correction of nutritional deficiencies in plants. The unique formulation of Nucleus 0-0-21 provides a non-corrosive liquid that is stable at cold temperatures. Applications of Nucleus 0-0-21 through mixing, application, and irrigation equipment may reduce the rate and degree of corrosion that occurs when this equipment is exposed to fertilizer solutions. When used as directed this product does not supply all nutrients required by plants and is to supplement a soil fertility program based on soil tests.

Limitations, Restrictions, and Exceptions

TURF:

- Apply 2 to 10 fl. ounces per 1,000 sq. ft. using 2 to 5 gallons of water per 1,000 sq ft. Use lower rate during summer applications. Apply as needed.
